

Logo Usage Guidelines

- **Purpose**

The purposes of these Guidelines are to specify the correct usage of the Red Dot Drone Japan Co. Ltd. (hereinafter referred to as the "Company") logo and to protect and enhance the brand value.

- **Concept**

The red dot in the logo is a symbol of "more eye-catching and superior technology" backed by Red Dot Drone Japan's "new challenges" and technological capabilities. The design features a red dot (drone) that moves as if flying through the sky, and the path traced by it creates the letters "R" and "D."

- **Classic**

Primary logo of the brand. Based on red and black, it combines strength and sophistication, offering a versatile standard design.

- Space

Keep the following margins at the top, bottom, left, and right of the logo mark, and do not place other design elements or letters within these margins.

- **Size**

Please observe the following minimum sizes to ensure legibility and visibility of the logo. For ensuring visibility, we recommend that the height of the letters be 1.5 mm (approximately 6.74 pt) or more. If the height of letters is less than 1.5 mm, you must not use the corporate logo type and only the symbol mark may be used. The minimum size of the symbol mark shall be 5 mm.

► LOGO

 At least 1.5mm

Changing the ratio

To change the aspect ratio of the logo (such as stretching it horizontally, squashing it vertically)

Balance changes

To change the letter size, the spacing between letters, or the size of elements

Rotation

To rotate the logo for use

Lack of visibility

To use the background color or low resolution that impairs visibility

Changing colors or adding effects

To use colors other than those specified or use gradients, drop shadows, and other effects

Alteration of logo

To process or edit the typeface or mark shape of the logo

Using a chipped portion

To use the logo with a chipped portion (such as marks and letters)

Adding elements

To add or overlay slogans, icons, background decorations, letters, or images to or on the logo
